Portfolio: <https://e-portfolio-seven-ashen.vercel.app/>

Location: Hartsel, CO

Frontend developer with hands-on experience building responsive, accessible, and user-focused web applications using JavaScript, React, and modern UI/UX principles. Known for adaptability, strong problem-solving skills, and a user-centered mindset developed through technical training and professional experience.

WORK HISTORY

Skinstric AI

Frontend Engineer

Remote | February 2025 – May 2025

- Developed a real-time skin analysis platform using Next.js and OpenAI Vision API, achieving 98% detection accuracy.
- Developed responsive, animated UI with TailwindCSS, GSAP, and Lottie, increasing user engagement by 60%.
- Optimized performance using Next.js Server Components, reducing analysis time to under 2 seconds.
- Designed modular, reusable components enabling rapid A/B testing and improved user retention (+40%).

Frontend Simplified

Frontend Developer & Support staff

Remote | June 2025 – December 2025

- Selected as a top 5% peer mentor, providing debugging support and code reviews for 20+ students.
- Led workshops on React, performance optimization, accessibility, and SEO best practices.
- Built and shared reusable component libraries, reducing development time by 40%.
- Supported students with deployment strategies and CI/CD workflows.

Independent Contractor

Caregiver

Hartsel, CO | June 2025 – Present

- Communicated clearly with clients and family members, reinforcing a user-centered and empathetic approach.
- Managed time, schedules, and responsibilities independently in a fast-paced environment.

EDUCATION

- **Frontend Simplified Institute** | Program Completed
Frontend Development, Responsive Web Design, JavaScript, Modern Frameworks
- **Bachelor's Degree in Psychology**
Trinity International University — Deerfield, IL

PROJECTS

NFT Virtual Training Project: [Live Demo](#) | [Github Link](#)

Designed a responsive NFT search platform using API-driven data.

- Integrated RESTful APIs using Axios to retrieve NFT metadata and digital assets, achieving 95% successful request rate and sub-2 second load times.

Summarist Project: [Live Demo](#) | [Github Link](#)

Full-stack web app with authentication, subscriptions, and API-driven content.

- Full-stack, production-ready web application featuring user authentication, subscription-based payments, dynamic routing, global state management, and API-driven content delivery, deployed with a responsive UI, skeleton loading states, and integrated media playback.
