Frontend Developer (Aspiring)

Motivated and detail-oriented Frontend Developer with hands-on experience building responsive, user-focused websites and web applications through a coding bootcamp. Strong foundation in modern JavaScript, React, and UI/UX fundamentals. Brings excellent communication, adaptability, and problem-solving skills developed across diverse professional environments. Seeking an entry-level frontend role where I can continue learning and contribute to high-quality user experiences.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), Python, SQL

Frameworks & Libraries: React, Bootstrap, Tailwind CSS

Tools: GitHub, VS Code, Chrome DevTools, Figma, REST APIs

Other: Responsive design, debugging, UI/UX fundamentals

Projects

Personal Portfolio Website

- Built a responsive, mobile-first portfolio using HTML, CSS, and JavaScript
- Implemented clean layouts, reusable components, and accessibility best practices

Dashboard Web Application (Bootcamp Capstone)

- Developed a React-based dashboard using reusable components and state management
- Integrated mock APIs to display dynamic data

E-Commerce Product Page

- Created an interactive product page with image gallery and add-to-cart functionality
 - Implemented form validation and dynamic UI behavior using JavaScript
-
